

If I was a Still life

What is a still Life?

Still life is defined as a collection of inanimate objects (food, flowers, books, rocks, instruments...etc.) that are arranged together in a specific way.

Here are some examples of still life drawings and paintings

Your project is to create a still life drawing using three objects that reflect back on who you are. For example if you play baseball you may bring in an old baseball glove, if you love a particular band you could bring in a cd of their music. Please make sure that the three things you bring vary in size and are not expensive or irreplaceable. While I will lock up our supplies when you are not working with them, I cannot guarantee their 100 % safety so I would like you to bring things that you might not mind losing just in case . Please fully review the attached rubric for details on how you will be graded.

Name: _____

Class period: _____

Date: _____

	Zero points	Partial points	Full points
Composition consists of at least 3 items of different size and shape. Items should be three dimensional 5 pt			
Completed neatly and is not "crumpled, dirty, or rushed." Drawing is also completed on approved paper. 10pt
